

PRESS INFORMATION

KINLOSS COUNTRY GOLF CLUB LTD

The Directors are delighted with the outcome of their Planning Application to Moray Council who have today approved the upgrade of our facilities at Kinloss to incorporate Holiday Chalets, Tennis Court and Club House Development that would include indoor training facilities/Golf Simulator. The project will be part funded from the development of 5 houses that will be located in an established landscaped setting in a discreet location within the course.

The Company would like to acknowledge the support for this project coming from:

***Highlands and Islands Enterprise
Visit Scotland
Moray Tourism Executive
Findhorn and Kinloss Community Council
Clubgolf Scotland
Findhorn Golf Society.***

There were no objections to our Planning Application.

The hard work now begins to ensure that this unique all weather facility can move forward for the benefit of our Club Members and Visitors to Moray.

We are indebted for the support received from Grant and Geoghegan, Planning Consultants and other Professional Advisors who have assisted us. Also the good wishes from our valued Club Members, local Companies and Organisations over the last 5 years since we took over this facility that has allowed us to undertake this enhancement.

***Tommy and Karen Dingwall
Directors***

6th April, 2010.
